The following article is reprinted from "Postal Stationery" the bimonthly publication of the United Postal Stationery Society. A special thanks to Jack L. Jenkins, Editor-in-Chief for permission to reprint this article.

THE TENNIS ENVELOPE

By William R. Geijsbeek
8449 N.E. 9th Street
Belleuve, WA 98004

A 10¢ envelope commemorating the sport of tennis was issued at Forest Hills, N.Y. on August 31, 1974. The envelope was issued in conjunction with the 1974 U.S. Open Tennis Tournament at Forest Hills to commemorate the 100th anniversary of the introduction of lawn tennis into the United States. The Tennis envelope was first announced by the USPS through Philatelic Release No. 34 issued on July 6, 1974. It was designed by Donald Moss of Chappaqua, N.Y. and was the first three-color stamp design used by the U.S. Postal Service on a stamped envelope. It was made available in both No. 6½ and No. 10 sizes and in regular and window formats.

Because of the decision to use a multicolor stamp design, complete production of the Tennis envelope by U.S. Envelope Company, the envelope contractor, at its Williamsburg, Pennsylvania facility was impossible due to the printing limitations of the VH machines used by U.S. Envelope for envelope production. Thus an outside contractor was chosen to pre print the stamp design on the rolls of paper normally used by the VH machines. The VH machines were then used to emboss, cut, gum, and fold the paper into completed envelopes. The contractor selected to do the printing was Guilford Gravure, Inc., of Guilford, Connecticut. They were also responsible for printing the 1970 Anti-Pollution stamps (Scott 1410 thru 1413) and the 1970 Christmas stamps (Scott 1414 thru 1418). The yellow, blue and green colors of the Tennis design were applied by rotogravure press while the tennis ball and racquet strings were embossed. The printing cylinders were made by Roto Cylinders of Palmyra, N.J.

This issue has two unusual features. It is the first commemorative stamped envelope ever issued in a window format. This was done to stimulate the interest of business firms in the issue. Secondly, the issue was made available with printed corner cards. While the Bowling Issue of 1971 was the first recent commemorative stamped envelope to be made available with printed corner cards, the Tennis issue went one step further. Rather than the usual black ink, the corner card was printed in a green ink matching the lettering of the stamp design making a very attractive combination.

Preproduction Runs

In December of 1973, in order to determine the feasibility of the project, six specially ordered rolls of P.H. Glatfelter paper (weighing approximately 3000 lbs.) were supplied to Guilford Gravure for a trial printing of No. 10 envelopes. Each roll of paper was 25 3/8" wide instead of the usual width (6 3/4" wide for No. 6 3/4 envelopes and 8" wide for No. 10 envelopes) and contained approximately 12,500 lineal feet of paper. This was done so that three impressions at a time could be printed on the paper and thus reduce the amount of printing time required. After printing, the paper was slit into three 8" wide rolls and spliced together to form the standard size rolls required by the U.S. Envelope Company's VH machines for No. 10 envelopes. Three of these rolls, each amounting to approximately 25,000 feet, were sent to Williamsburg in February for a trial printing run. The trial run on February 27th was a success. The envelopes produced in wmk. 48A (The Glatfelter watermark) as well as remaining roll stock were immediately destroyed except for 500 envelopes sent to USPS headquarters for approval. The remaining stock of Glatfelter paper kept by Guilford Gravure for trial runs and testing purposes was rigidly controlled. All of this paper was accounted for and eventually shipped to Williamsburg where it was destroyed.

Production Runs

At Guilford Gravure the production runs of the Tennis envelope started on May 29th and were all made with paper produced by the Oxford Paper Co. at their mill at Rumford Falls, Maine. The reason for the exclusive use of Oxford paper was economy. It minimized the transportation costs since Guilford is between Rumford Falls and Williamsburg. The other two paper suppliers are located in Pennsylvania (Glatfelter) and Ohio (Champion) which would have required duplicated transportation costs. This explains why the Tennis envelopes appear only in watermark 49A, the current version of the Oxford watermark. Again, the rolls of paper supplied by Oxford were extra wide - 28 3/8" wide accommodating four impressions for the No. 6 3/4 envelopes and 25 3/8" wide accommodating three impressions for the No. 10 envelopes. Both size rolls contained 20,000 feet of paper. Shipments of Oxford paper were received by Guilford Gravure from May 9th through September 5th. After printing, the paper was slit into normal width rolls leaving some width-wise scrappage. Two of these "press rolls" were then spliced together using a colorless double-back tape creating a new roll of paper containing 40,000 feet. Guilford Gravure printed the 25 3/8" rolls between May 29th and July 30th and again from August 24th to September 26th. The 28 3/8" rolls were printed from July 31st to August 21st and between September 27th and October 2nd. The rolls were then shipped to Williamsburg for completion of the envelope production process. The envelopes containing the taped splices were removed by hand at the end of the production process. All Tennis envelopes were produced with the new knives introduced with the 10¢ Liberty Bell issue (knives 112 and 113).

The first shipment of printed production paper was made to Williamsburg on June 11th and the first envelopes at Williamsburg were produced on June 26th. They were size 10. The first production of other sizes were: No. 6 3/4 - August 8th; No. 6 3/4W - August 13th; No. 10W - July 23rd. The last shipment of paper from Guilford Gravure to Williamsburg was made on October 14th.

Printing

The printing of the Tennis envelope was itself a significant accomplishment because until recently gravure printing required a hard paper surface. The difference can be noted in the paper used for the previously mentioned gravure printed stamps compared with the paper normally used for engraved stamps. Thus the unfinished surface of envelope paper was previously unsuitable for gravure printing. One process that helped

overcome this limitation was the use of electrostatic charge. The printing cylinders, and thus the ink, were given a positive charge while the paper was given a negative charge. This caused a more complete ink transfer. The order of the printing was the yellow racquet, then the blue background of the strings, and finally the green lettering.

Figure 1 shows some examples of printed corner cards. The Lynnwood office request corner card appears on a size 6 3/4 envelope; the City of Algona corner card is on a size 6 3/4 window envelope; the size 10 envelope has the corner card of the Southern California Tennis Association while the size 10 window envelope shows the corner card of the envelope's printer — Guilford Gravure, Inc. Figure 2 shows two envelopes with commercially printed corner cards.

ADVERTISING RATES: FULL PAGE \$10.00; HALF PAGE \$6.00. A discount of 10% is allowed for six insertions of identical copy. Camera ready copy must be supplied by the advertiser. Publishing deadline is the first day of January, March, May, July, September and November.

NOTE: The opinions expressed in this publication are those of the individual authors and they do not necessarily represent those of the editor, the officers of SPI or the position of SPI itself. All catalogue numbers quoted in this publication are from Scott's Standard Postage Stamp Catalogue unless specifically stated otherwise. SPI and JSP do not guarantee advertisements, but accept copy in good faith, reserving the right to reject objectionable material.

Registration markings were added to help control printing alignment. They were printed in the waste area of the rolls and were trimmed off when the rolls were cut to standard widths.

A second factor that helped improve the ink transfer was the use of a pre-applied sizing to the paper surface. This was done by adding sizing to the tagging solution and applying it prior to printing. A second registration mark, blue in color, was also printed on an area of paper normally cut out by the envelope knife. These markings were for U.S. Envelope which used electric eye register control to obtain correct embossing and cutting registration.

Tagging

Tagging the Tennis envelopes served two useful purposes. One was to provide the USPS with the tagging necessary for mail handling equipment and the second was to apply sizing. The tagging consists of a 1½" by 3" rectangular overlay applied by Guilford Gravure immediately prior to the colored inks. The large size of the tagging area was to insure adequate coverage for the printed design. The preproduction envelopes had a tagging which fluoresced a bright green but under visible light showed up as a dirty gray. To minimize this latter appearance, the tagging ink formula was changed in early May before production runs began. The early production envelopes still had a weak greenish glow while later Tennis envelopes have a tagging that fluoresces a blue-white.

Corner Cards

As anyone trying to locate corner cards on the Tennis envelope knows, they are very elusive. Postal Bulletin 20922, dated July 18, 1974, gave post offices the item numbers needed to order the Tennis envelopes as well as other specific information. It stated that printed envelopes could be ordered through March 31, 1975 and instructed postmasters to inform their window clerks of the availability of Tennis envelopes in regular and window formats in both plain and printed styles. However, no change was made to USPS Notice 18, "How to Order Printed Stamped Envelopes" to note the availability of printed Tennis envelopes or to give their item numbers. This, coupled with the facts that the ordering information in the postal bulletin was never repeated during the ordering period and that very few postal clerks were aware of the availability of printed Tennis envelopes, caused very little demand. Of the 65,371,000 Tennis envelopes manufactured, only 1,002,000 were ordered with printed corner cards. This amounts to only 1.5% printed as compared to the normal 35% for the 10¢ Liberty Bell envelope.

Except for certain air mail issues, the Tennis envelope was the first to be issued with corner cards printed in a color other than black. While the usual color of the corner cards is a light green very closely approximating the green used for the lettering of the stamp design, various shades are known including a dark blackish-green. Despite the fact that the envelopes should have appealed to the tennis fraternity, it appears that few tennis associations were even aware of the envelope commemorating their sport. This is contrary to the Bowling issue of 1970 which was used by many bowling alleys.

First Day

The No. 6¢ and No. 10 regular Tennis envelopes were first placed on sale August 31st at Forest Hills which is a station of the Flushing N.Y. post office. Both sizes were serviced and exist with both the machine and hand First Day of Issue cancels. One box of each size of the two window envelopes were sold at Forest Hills on August 31st.

After the initial sale, postal officials reversed their position and refused to allow further sales of window envelopes. Several collectors shared in the two boxes and succeeded in obtaining cancellations at several surrounding cities. Through error, a few No. 6½ window envelopes were canceled with the FDOI handstamp. As the next day was Sunday and the following day was Labor Day, Tuesday (September 3rd) was the next appearance of window envelopes. Both sizes are known canceled on this date in Washington, D.C. The Tennis envelopes were sold by the Philatelic Agency in sets of 4 or by the individual box.

Quantities

The quantity manufactured for each Tennis envelope is given below. As mentioned previously, the envelopes with printed corner cards are not very common.

	PLAIN	PRINTED	TOTAL
SIZE 6½	21,985,500	125,500	22,111,000
SIZE 6½ WINDOW	11,738,000	228,500	11,966,500
SIZE 10	22,955,500	501,000	23,456,500
SIZE 10 WINDOW	7,690,000	147,000	7,837,000
TOTAL	64,369,000	1,002,000	65,371,000

Acknowledgements

The writer wishes to express his appreciation to William J. Forsythe, manager of the U.S. Stamped Envelope Agency at Williamsburg, and to his staff, and to Albert Lessner, Vice President and General Manager of Guilford Gravure. Their generous cooperation, which was not only thorough but graciously given, made this article possible.

AUCTION REGULATIONS

TERMS OF SALE:

1. All lots are sold to the highest bidder at a slight advance over the second highest bid. The right is reserved to withdraw any lot prior to the sale. Mailing and insurance charges are payable by the purchaser.

2. Terms of sale are cash and all lots must be paid for within four days of receipt.

3. Bidders who are not members of SPI will be notified of lots purchased and must remit before the lots are sent.

4. Should a claim for error of description arise, such claim should be made within three days of receipt of lot. Claims made after that time cannot be considered. Lots described as collections, mixtures, etc. are not returnable under any circumstances.

5. No charges are made for executing bids. SPI is not responsible for bidder errors or omissions.

6. SPI reserves the right to reject any bid believed not to have been made in good faith. Any bid not commensurate with the value of the offering may be rejected.

7. On identical bids the earlier postmark will govern.

8. The placing of a bid shall constitute full acceptance of the foregoing terms.

9. All material in the amount above \$10 will be mailed strictly by registered first class (foreign registered-air mail) only!

+++++CLOSING DATE: APRIL 30, 1977+++++

Place all bids on a separate sheet of paper. All bids must be sent to: Mr. Olech W. Wyslowsky, 55 Glenwood Ave., East Orange, NJ 07017 USA.

LETS POOL OUR OLYMPIC AND SPORTS KNOWLEDGE

EDITED BY EDWARD B. EPSTEIN

Sports and Olympic philatelists have, collectively, a great deal of knowledge which, when pooled, can be of mutual benefit. Questions concerning sports and Olympic philately will be assigned a number and published in JSP. Responses to questions will be printed in subsequent issues. Address all questions and answers to your editor: Edward B. Epstein, Paterson Board of Education, 33 Church St., Paterson, NJ 07505 U.S.A.

- A-29 Thanks to Emilio Obregon of Mexico, a satisfactory explanation has been provided regarding the inverted year numeral on the Mexican Olympic machine slogan "Use and Collect Olympic Postage Stamps" from Monterrey dated April 27, 1968.

In his letter to your editor he states "I have actually seen one of the automatic cancelling machines used by the Mexican Postal Service, just like the one used in Monterrey." He continues "The cancelling devices in these machines is divided into four different parts: the central portion being, (at that time) the hour, the date and month, and the year numeral. The fourth part is the outer circular design. Each part of the central portion had to be changed daily and individually in order to fit into the outer circular design. So, in the case of the Monterrey cancel, only the year numeral was the one that, by mistake, was placed upside down. One may suppose that, when the date was changed the next day, it mounted correctly. Some, not many, other inverted date cancels are known with different dates from different towns. Even if during one day many cancellations were printed, in Mexico nobody cares for that aspect of philately and, obviously, almost all were destroyed. So, the inverted date cancels have to be considered rare."

Your editor has in his collection, in addition to the 1968 invert discussed above, the same machine slogan cancel from Monterrey in which the hour, date and month and year numeral, was inverted. On the year numeral the 197 are the only numbers that appear.

- A-36 Thanks to Morris Rosen and Joe Schirmer for the answer to question #36. Budapest July 4/5, 1925 roller cancellation---there are 6 special cancellations for the 50th Jubilee of the Jungarian Athletic Club. The first line M.E. SZ means Magyar Evejo Szovetsig (Hungarian Rowing Federation). The second line means Nemzetkozi Regetta (International Regetta 1925 Berlin-Budapest-Wein).

- Q-40 Can anyone provide a technical explanation of the method used by the Canadians to transfer the Olympic flame, via satellite to Montreal?

- Q-41 While reviewing his collection your editor noticed an oddity regarding the commemorative first day cancels used for the San Marino set (Scott #427-32, C106). It seems two cancels were used. The ordinary cancel's date reads "19.5.1959." However, the "Posta Air" cancel reads "19.5.959" (the numeral one is missing). This same deletion (in the air cancel) appears on two maximum cards in your editor's set. He wonders if other members of S.P.I. have the same deletion?

Belated Olympic Medal

In the 1924 Winter Olympic Games in Chamonix, Anders Haugen of the United States placed fourth in the ski jumping competition, won by Norway's Jacob Tullin Thams. The silver and bronze medals went to Narve Bonna and Thorleif Haug (both Norway), respectively.

Haugen felt fairly confident that he won the bronze medal after he had completed his second jump, but he accepted its being awarded to Thorleif Haug. As for Haug, when it was announced that he had placed third, he said that the medal really should have gone to Anders Haugen.

When the official results were announced, many believed that a calculation error had been made and that Haug and Haugen should have switched places, giving the United States its first Olympic medal in Nordic events. Nothing was done to correct the error, however, until 50 years later.

This month, the Norwegian Olympic Committee, having confirmed that an error was made in 1924, arranged for Haugen to receive the medal he had won in the first Winter Olympic Games. In a ceremony near Oslo's famous Holmenkollen Ski Jump, the bronze medal was presented to him by Anne Marie Magnussen, daughter of the late Thorleif Haug. Mrs. Magnussen said that had her father been alive, he would gladly have made the presentation himself. Also present were six of Haugen's fellow ski jumpers from 1924.

Haugen, now 86, was born in Telemark, Norway, in 1888 and emigrated to the United States in 1908. His home is in Yucaipa, CA.

You Need This Book

The 1932 Olympic Games in the USA were probably the last one with a non-political setting and glossed over the despair of world economic depression. SPI has published its first handbook gathering the evidence in postal history and vignettes. It has over 200 pages, about 400 items illustrated and comes with a vinyl gold-stamped three ring binder. Order your copy today from William F. Brown, 1408 N. Fenton Ave., Indianapolis, IN 46219 USA.

THE POSTAL HISTORY AND VIGNETTES OF THE 1932 OLYMPIC GAMES; priced at \$8.00 each, postpaid to MEMBERS ONLY. Foreign orders must be in US dollars by International Money Order or by bank draft drawn on a US bank.

a limited quantity will be made once
a year.

What Next in Olympic Varieties??

by Joe Schirmer, Associate Editor

Over the years there have been more than enough "plate varieties" being discovered by assorted collectors and dealers. Now a very enterprising and energetic Canadian dealer has conveniently "discovered" another variety . . . on the recently issued \$1 and \$2 Canadian Olympic stamps. He claims that the additional printings were on DULL paper instead of the original Hibrite paper. He even claims that it is visible to the naked eye. Be all this as it may; I have had a terrible time in trying to distinguish between the two; and even if so; what is so different about papers? I can see colors, perfs, missing printing, broken lines etc., but when one gets into papers they are creating a field that is a toughie which is not for the topical collector. And they are only asking \$30 for the "variety" and \$120 for blocks . . . now we ask you??

* * * DID YOU KNOW??? * * *

by Joe Schirmer, Associate Editor

In today's philatelic world, the collecting of sports cancellations are definitely on the rise and there are actually more sports cancellations than there are sports stamps. Evidence of this can be easily seen in various parts of Europe where there is some form of sports event which is to be commemorated by a special postmark. The long lines at postal counters are an indication of the popularity of this phase of sports philately, and our sports promoters here in the U.S. and our postal people could take a page from the book of the Europeans.

Sports cancels are older than sports stamp, and Germany used the first sports cancel to commemorate a gymnastic festival in Leipzig in 1863 --- Austria in 1880, Switzerland and Germany in 1895 issued cancels for rifle shooting.

If any SPI members have any of these cancellations, please send a clear xerox copy to me for study purposes and I will reimburse you for your trouble.

GOLD IN PHILATELY OR "GIGGING DE*LUXE"

by Joe Schirmer, Associate Editor

People have always used gold as a medium of exchange or a back-up for their currencies; and coin collectors were amongst the first to take advantage of the potential money making facets of gold . . . an example is the numerous gold coins, notes, medals, bars, tokens, etc. Not to be outdone, the stamp collector finally followed suit . . . it was but a few Olympiads ago, when places like Chad, Togo, Equatorial Guinea, and the various Arab Trucial States started to flood the market with the gold and gold foil issues. Needless to say they were for one purpost . . . the dealer and promotor to make money. I even know a promoter in Paris who used a very stunning woman at various shows to "promote" the gold issues he was backing . . . but he eventually left the field; gold issues dying rather quickly as they should.

Now comes to light a rather startling fact . . . the medals issued to winners in the Olympic Games were not gold in the true sense but actually gold plated silver containing approximately 6 grains of gold; and even at today's depressed gold prices, this certainly indicates something is wrong.

Now, if the awe-inspiring (??) International Olympic Committee will spend but a measly \$66 for a medal that is supposed to honor a famous and world renowned athletic; just what do you think the average dealer and promoter will give you for your gold stamp issues? Not a helluva lot, believe me.

Be forewarned-- there "ain't any legal gold issued stamps."
