MELBOURNE GAMES REGISTRY LABELS -----

Reprinted from the Internationale Motivgruppen Olympiaden und sport bulletin.

In our circular from February 1974 we printed an article about the registered mail to the Olympic Games in Rome in 1960.

This article found great interest, because most of the collectors did not know about these registry labels. Also for the Olympic Games in Melbourne there were special registry labels, but most of the Olympic collectors did not know they existed.

Because of the Olympic Games in Melbourne they established 16 different special post offices with a total of 54 special cancellations.

The description of these special post offices show you in the special cancellations and registry labels the different sport locations and places of activity. Some special post offices used up to 8 (eight) different special cancellations but only one registry label for that office.

The registry labels are all printed (with one exception) in the usual type of print and dark blue color. The special post office for the Olympics used a different type of registry label, they were noticeable because of their size and two color design. On these registry labels the "R" is printed in red.

The number of registered mail at each single post office is very difficult to ascertain.

The single registry labels have the following text:

1. Olympic Village

SIGN UP A NEW MEMBER TODAY!

Editorial

A very special thanks to all those members who have sent in news clippings, notes and covers pertaining to the Lake Placid Games. Due to the lack of time and the number of letters that would have to be written, I am taking this method of thank each and everyone of you for thinking of your editor. Keep it up for the more information that is sent in the more I can print in JSP for all to read.

The recent two-part article "Tennis Philately" by George H. Scheetz was one of our most eminently successful articles in years. The response by members and non-members was simply tremendous! The response was so great in fact that the backlog for these two issues is nearly depleted.

Since this type of article is so popular I would like to see some members work on the following which (but not limited to) we have had requests for. Running stamps; wrestling stamps; gymnastics stamps & figure skating stamps. Remember, all articles should be illustrated and I am prepared to have photos made from your stamps. Let me hear from you if your thinking of doing this type (or any other) of article.

1932 FDC AUCTION

Professor Earl Planty, 3602 N. W. 8th Avenue, Coral Springs, Florida 33065 concluded a mail sale on November 15, 1979 which included some Olympic lots of interest.

Professor Planty is retired and is selling his lifetime collection via mail sales. He specializes in United States First Day Covers but his catalogs usually include some airmail covers of interest.

Planty is author of his famous Planty's Photo Encyclopedia of Cacheted F.D.C.s which is devoted to U. S. FDC's of the classic period, approximately 1923-1929 and the neo-classic period 1934-1939. As yet a description of the period 1930-1933 has not come forth as the encyclopedia is being issued in installments. Readers interested in the installment dealing with the 1932 Olympic FDC's only should write FDC Publishing Co., Post Office Box 206, Stewartsville, New Jersey 08886.

The following cacheted US 1932 Olympic FDC's were sold in Planty's mail sale. Catalog numbers refer to those in handbook published by Sports Philatelists International, Postal History and Vignettes of the 1932 Olympic Games.

Handbook value is for cachet only from the 1976 handbook. From the information above, it appears that demand is mainly for printed cachets. Rubberstamp cachets are not particularly liked. Registered covers are seldom offered. Condition of covers is well above average--usually very fine or better, except where noted. The cover that realized \$60 is, of course, a FDC for the 3¢ and 5¢ Olympic stamps but also has the 2¢ Olympic stamp.

LATEST OTTO VOLK PRICE LIST

reviewed by

Sherwin Podolsky

"Angebot: Olympiade/Fussball-Weltmeisterschaften/Sport Nr. 80-79" published by Otto Volk, Albert-Schweitzer-strasse 34, D-6120 Erbach/Odenwald, West Germany.

This is a German-language booklet of 60 pages including 12 pages of very good illustrations of better material. It is a sensitive retail price list offering a wealth of specialist material in Olympics, soccer world championships and sport. Listings include stamps, covers, postmarks, vignettes, etc..

Volk issues new booklets periodically and material for some Olympiads alternates among the booklets. The current issue dated December 14, 1979 has Olympic offers for 1900, 1912, 1914, 1928, 1936, 1948, 1952, 1956 and 1964 through 1980. World Soccer Championship material is listed for 1928 through 1978. The last nine pages list mint and used sets of stamps.

Special philatelic literature is listed and offered for Olympic years 1964, 1968/1972 and for 1976. There is a Pfau soccer catalog for 1930 to 1970. A separate volume is offered for the 1974 World Soccer Championships.

Otto Volk can correspond in English and will gladly explain anything not clear or answer your specific wishes. Prices in the catalog are in West German marks which are now about 60¢ each at this writing.

There is no price for the catalog, but \$2 should get you a copy by airmail.

Volk uses a mini-auction for the more difficult material. Such lots are marked by a large black dot and a "Mindestgebot" designation states the lowest acceptable bid in DM. A review of past realizations shows that some lots go for more than double the least acceptable bid, but many are sold at or modestly above such prices.

As usual, Volk's lists are strongest in German material for 1936 and 1972 Olympics, both held in Germany.

Some offers include:

- 1912 Stockholm machine Olympic cancel on postcard
DM 290
- 1928 Netherlands Esperanto sheet for Olympics,
with special cancels tying the set DM 230
- 1936 Olympic souvenir sheet registered on cover
from Olympia Schwimm-Stadion DM 130
- 1936 Red meter, Berlin SW 61 Berlin Stadt der/
Olympiade 1936. On piece. DM 250
- 1948 Finland continuous slogan machine cancel
MUISTAKAA OLYMPIA on commercial cover from
Lahti (as arrival cancel) DM 100
- 1956 Canada. Cacheted cover with machine slogan
cancel of Kitchener, Home of Canada's
Olympic Hockey Team. Mini-auction start
price DM 45

Volk's catalogs are a standard reference for Olympic collectors seeking to exchange. Volk buys, sells and trades. Very worthwhile for Olympic, soccer and sport specialists.

US WINTER THOUGHTS

by JOE SCHIRMER

The US Postal Service has put out an Information Handbook and Philatelic Souvenir Album for the 1980 Olympic Games at Lake Placid. The book is soft bound, measures 4 1/4" x 6" and contains 36 pages. Besides giving one all the latest postal rates, it contains a map of the Olympic facilities & post offices and a chart for recording the 3 medals in the various events. There are photos of the stylized Olympic cancels along with blank pages for one to place a stamp and get the assorted cancellations for each area. It gives a rundown on all Olympic stamps and stationery listed for the Games plus a list of pre-packaged Olympic Philatelic Kits which sell between \$2 and \$10.

There is a very interesting 6 page brochure put out by the Falk Corp. of Milwaukee, Wis. entitled "Sport Facts". Issue #107 is a very good general history of the Olympic Games, its technicalities and stamps.

Already there is appearing 2 different perforation varieties for the just issued US Winter Olympic stamps. The Postal Service reports that 90% of the stamps will be perforated by the "L" perforators (line perforations) & the other 10% by "on press" perforators. The perforations are easily identified by the perfect crossing of the horizontal & vertical perfs and the lack of perfs thru the outer selvaige. Both varieties are available from the Philatelic Sales Branch in D.C. with the usual minimum order of \$5.00.

Look at the first Lake Placid US stamp, Scott #716..the famous downhill skier---the skis are crossed, body position is wrong and a loose scarf is flying from the neck. Incidentally besides all this, there was no downhill skiing event in the 1932 Olympics...ah??

For your information, "Saggio" is Italian for specimen and in Spanish it is "Muestra". "Ultramar" is Spanish for foreign or beyond the seas, and is found often on covers.

Do you think that Greece Scott #161 should be considered as a sport stamp?? Let me have your opinions, and then I will tell you some facts about this stamp that will surprise you and make you realize that it really is truly an Olympic stamp

With all the political and ethnical shoutings concerning the 1980 Olympic Games, you may just be seeing the start of the demise of the Games as we know them. Of course if this happens, then we will have to see what the promoters will do...they will either make or break Olympic collecting---it is something for you to consider, believe me. What you now have in Olympic stamps may just suddenly become a rather valuable piece of property....are you with me???

New Issue Column

by JOE SCHIRMER

Notes: Recently, the Universal Postal Union at its 18th. congress held in Brazil from 12 Sept. thru 25 Oct. 1979; declared illegal, and of no avlidity the stamps issued by the so-called "Turkish Federated State of Cyprus". The UPU acted on this motion which was submitted by the govt. of the Republic of Cyprus. All member countries of the UPU are asked to refuse to handle any mail bearing these illegal postage stamps.

The APS has Black Blotted the pair of Russian stamps; 1.50 R + 50 k which promotes Olympic tourism. A limited printing of 200,000 pairs is the reason given for the blot. In fact, there are a total of 6 stamps for the entire series.

President's Message

Our nominating committee of Len Eichorn, Clem Reiss, and Bill Smithett is now functioning. Any suggestions should be rushed to them. It is a matter of record that the committee was appointed without the benefit of volunteers from the membership.

A variety of thanks is due individual members of SPI. Ed Epstein represented SPI at the recent INTERPEX in New York, manned an unexpected SPI booth at intervals when he was available, presented several seminars on Olympic collecting, and tried to encourage the foot-dragging ASDA to use the Olympic Games as a theme for the exhibit. Joe Schirmer edited the delightful special issue of Linn's in mid-January--no small task considering the reticence of our members to write and the wide variation in the writing styles of those who did contribute. A small group of members did come through with articles for our editor and, after considerable effort by Editor Joe, a very nice issue was put together. Unfortunately the publisher's personnel did not do a perfect job of reproduction, but such errors do occur. Therefore, we owe a vote of thanks to Linn's for making the opportunity available.

The current issue of Stamp Collector (April 19) contains a feature column by a staff writer on the literature of Olympic collecting. There is a nice boost for SPI near the end of the article. We thank Ms. Sente and SC for the publicity.

The last six months show a total of twenty-two new members and five reinstatements. This is encouraging; it may even balance the defections in the fall when annual dues should be paid. Whether this surge represents the Olympic year (such as it should), the special issue of Linn's, the efforts at INTERPEX, or the regular recruiting activities will probably never be known. More importantly, will the surge continue?

Psychologically it is always a question whether to lead or close with the less pleasant news. The officers and directors announce a one-dollar increase in dues; effective immediately. There should be no questions as to the cause; with inflation peaking (to date only) at 13.3 percent in 1979, no dues structure can remain static. Very probably most organizations will face additional increases in the future, especially if postal rates rise as hinted by Postmaster General Bolger. At any rate, the dues for SPI are now \$6.00 per year, with a limit of two years' payment both permitted (as a service to the members) and encouraged (as a help to the Secretary-Treasurer). It is hard to imagine the extra work and expense which members pile on this hard-working officer by failing to renew promptly. Hence, this is an advance notice that renewals are due as of September 1st. Why not pay now and help all around?

Simultaneously, new life memberships have been eliminated. Of course life memberships paid in the past will be honored. The continued inflation combined with actuarial problems prohibit the continuation of such offerings. Other, similar organizations are following the same path. The huge Ohio Education Association has just done away with all multi-year memberships. We regret the necessity of this action.

A note on change of addresses. It seems a certain number of members move but do not send in a change of address. We will no longer send out cards to these members requesting them to supply their new address. When a copy of JSP is returned to the editor because the member has moved and not given his new address, his or her name will be removed from our mailing list!! If you do not receive several issues of JSP you will know what happened. You can always ask to have the issues you missed sent on to you. We would appreciate you sending some additional postage as we have to pay return postage to the editor and then additional postage to you. This is three times the cost for not sending in your change of address.

Many thanks to those members who attended the Olympic Games at Lake Placid and who send brief notes and cards. At least six members sent notes to the editor. The following report was sent in by Bob Wein of Gulfport, MS.

After many years of being a fan and collector of Olympics I finally got to Lake Placid. I was there for the last three days of the Games and it was great. Being at the US-Russia hockey game was an incredible experience and made the whole trip worthwhile. In fact everything after that was an anticlimax.

A few things about the USPS operation at the Games might be of interest to other SPI members.

(1) The USPS gave away a small booklet called the "1980 Winter Olympics Information Handbook and Philatelic Souvenir Album". In it were 12 pages for the different cancellations, some venues were duplicated. I don't remember any publicity about this booklet. In order to get it complete you had to be there on the last day. The combination of those two facts might make the booklet complete with all the cancellations a very hot item.

(2) Each of the USPS locations had on hand cancellation devices for other venues. Anywhere from four to all nine. Although they would not give you date selection or the closing cancel they would give cancels for whatever devices they had on hand.

EDITOR'S NOTE: for your information, collectors and dealers who had large quantities of covers to be cancelled had them cancelled at ALBANY, NY for all 9 cancels and all dates including closing date.

(3) While in the P.O. I saw an infinite variety of material being cancelled. I did a little of that myself. The result is going to be a tremendous number of one of a kind philatelic souvenirs. We are all going to have to be very careful about what we buy and how much we spend for 1980 Lake Placid material.

(4) Before the Games I sent off material to every different P.O. box so I could get every available cancel. Needless to say the USPS did me in. I got back more than I sent to some and none that I sent to others. There are nine that I did not get back at all. I would like to trade duplicates with anyone who might be in the same boat as I. The oddest of all was that I got back two covers with cancellations that were not supposed to exist. Both carried the Whiteface Mt. station cancellation dated Feb. 24th. No such animal was supposed to exist. Obviously, a good deal of material wound up in the wrong P.O. box. All I can say is HELP! I've got duplicates of most of the torch relay, home of the Olympics and venue cancels. I'll swap anybody for anything I don't have. Got a few FDC cancels for Gulfport, MS. Sports and Olympic philatelists have, collectively, a great deal of knowledge, which when pooled, can be of mutual benefit. Questions concerning sports and Olympic philately will be assigned a number and published in JSP. Responses to questions will be printed in subsequent issues. Address all questions to your editor: Edward B. Epstein, Paterson Board of Education, 33 Church Street, Paterson, N.J. 07505 U.S.A.

A-64 Olympic Year-1980 seems particularly appropriate to discuss Baron Pierre de Coubertin's role in the Olympic games. Although, as a youth, he enjoyed rowing, fencing and boxing he never competed athletically in an quadrennial Olympic celebration. The Baron's main objective for reviving the Ancient Games was related to the role of amateur sports and its ability to combat physical and moral decadence. It was through his untiring efforts that he not only succeeded in reviving the Ancient Games but he was a major force in codifying Olympic protocol, organization, and character.

Perhaps in all of de Coubertin's writings, his love of sport is best summed up by his "Ode To Sport" which he entered in the Olympic Fine Arts competition of the 1912 Stockholm games and was awarded first prize. The authors of the "Ode" were officially listed as Georg Horod and Martin Eschbach, to keep his identity anonymous.

The following passages from the nine stanza "Ode" best reflect de Coubertin's thoughts:

II. "O Sport, you are beauty ! You-the architect of this house, the human body , which may become abject or sublime according as to whether it is defiled by base passions or cherished with wholesome endeavor. There can be no beauty without poise and proportion, and you are the incomparable master of both, for you create harmony, you fill the movement with rhythm, you make strength gracious and you lend power to supple things."

IX "O Sport, you are peace! You forge happy bonds between the peoples by drawing them together in reverence for strength which is controlled organized, and self-disciplined. Through you the young of all the world learn to respect one another, and thus the diversity of national traits becomes a source of generous and peaceful emulation."

On September 2,1937,during a walk in Geneva's Lagrange Park, Pierre de Coubertin died of heart failure. He is buried in Lausanne. Switzerland, where he lived,but his heart was interred at Olympia,Greece in a marble monument commemorating the revival of the Olympic games. In de Coubertin's words, "Olympia, ... that ground belongs to me, to the one who has made its soul and deep consciousness live again."

Formally, de Coubertin's "Ode To Sport" was in contention and won the first award for Fine Arts literature at the 1912 Olympic games. It may also be stated that his spirit of Olympic competition lies within the body of every true Olympic contestant.

Q-73 I have recently started a collection of The Ancient Olympic games on stamps. Information is needed about the 1d Greek stamp (Scott 681) of the Aug.12.1960 set picturing the judges entering the stadium. Can you recommend a good reference for "The Ancient Olympic Games?"

Q - 74 I recently acquired for my Olympic collection a 1973 cover franked with a bilingual slogan meter mark reading, "Zeiss/ Official Distance Measurment/ Carl Zeiss " / 7082 Oberkochen , West Germany. Can anyone provide information?
