1988 U.S. BASEBALL CANCELS

BY: Norman Rushefsky

The 1988 baseball cancel program began in January with a special cancel at BUFPEX '88 honoring the opening of Pilot Field in Buffalo, New York. (see Fig. 1) Pilot Field is the home field of the Buffalo Bisons, the Triple A minor league baseball team. Pilot Field actually had its opening day in April and a similar cancel was used on this occasion (Fig. 2). Two similar Colorano cachets were prepared for these events.

FIG. 1

In February the Home Run Special cancel was once again used by the West Omaha Philatelic Society. This year their stamp show honored Stan "The Man" Musial (see Fig. 3). A similar cancel was also used August 27-28 at the society's August stamp show.

In April the opening day of minor league baseball in Rockford, Illinois was noted with a special cancel for the game between the Rockford Expos and the Beloit (Wisconsin) Brewers.(Fig. 4)

Also in April two cancels were used in San Diego at San Diego Jack Murphy Stadium, home field of the Padres. One cancel honored the home opener of the Padres against the Dodgers (Fig. 5). A few days later the Padres honored Steve Garvey, who wore number 6 for the Padres.(Fig. 6).

In June the NCAA College Baseball World Series was noted with a cancel at Omaha, Nebraska. Stanford University won this championship again. They were the 1987 winner as well.(Fig. 7)

In July the National Sports Collectors Convention was held in Atlantic City, New Jersey and a special baseball cancel was used. (Fig. 8)

Another San Diego cancel was used at a stamp show and honored the San Diego sports teams, the Padres and the Chargers (football). (Fig. 9)

A special postal station was provided at Shea Station, home field of the New York Mets. The game that day honored Tom Seaver, the great pitcher who wore number 41 (Fig. 11).

The last Sunday of July is the annual induction ceremony for the Baseball Hall of

In August the 11 years old and under World Series was once again held in Tarkio, Missouri (Fig. 13).

On August 8 baseball history was noted with a cancel (Fig. 14) used at Wrigley Field, home field of the Chicago Cubs. This was the last Major League field to employ artificial lights for night-time baseball. The game was rained out before the 5th inning so it had to be completely replayed on another date.

A baseball and a bat are featured on a cancel (Fig. 15) noting a "corn boil" in Cobb, Wisconsin. I assume this celebrates the corn harvest but 1988, due to drought, was not a good year for most of the nation's farmers.

The East Coast National Baseball Card Show was held in White Plains, New York and a cancel used at the show featured a baseball card.(Fig. 16)

October is Major League World Series time and after an exciting pennant contest between the Los Angeles Dodgers and the New York Mets the weak hitting Dodgers defeated the favored Mets team to win the National League pennant. The power hitting Oakland Athletics easily won the American League pennant and were favored to win the Series. However, Dodger pitching prevailed over the power hitters of the Athletics and the Dodgers won 4 games to 1. Each game of the Series was noted with a cancel at the postal station established at the games. The cancels for game #1 at Dodger Stadium and for game #4 at Oakland are illustrated in Figs. 18 and 19 respectively.

Lastly, a cancel was used at the WESPSEX stamp exhibition in White Plains, New York on April 8-10, 1988. The cancel featured some graphics with "Let's Have/ Fun Collecting/ Sports Memorabilia/ at WESPSEX Station". I have not been able to obtain a cover with this cancel so I cannot illustrate it in this article. All of the covers sent by me to the postmaster for this cancel were not returned.

On February 1, 1988 Austria used a special commemorative cancellation publicizing the Winter Olympics. The organizing committee logo is in the center with the Olympic Rings, Calgary 88. It was used at the Olympic Stamp Show in Vienna. (Fig.7)

Barcelona '92

Part 1

by

Mark C. Maestroni

This is the first in, what I hope will be, a series of articles leading up to the Games of the XXVth Olympiad to be held in Barcelona, Spain from Saturday, July 25 through Sunday, August 9, 1992. As sports philatelists dealing with the new FIP thematic rules, it is now necessary to think in broader terms. Thus, the historical, cultural and societal aspects of Barcelona and Catalonia will be discussed along with new Olympic-related and philatelic information. When encountering a number in [], the reader is directed to related Scott Catalogue material.

BARCELONA: TWO MILLENNIA OF HISTORY

Catalonia (in Spanish, *Cataluña*; in Catalan, *Catalunya*) is a most unusual province of Spain, in the sense that it combines, both historically and culturally, the best of it's Spanish and French heritage. Catalan, the lingua franca of this autonomous area is a combination of both Castilian (the traditional Spanish dialect) and French Provençal [# 2056]. The geography of the Iberian Peninsula contributed much to the formation of Catalonia's distinct character. Isolated from the kingdoms of central Spain by the mountainous Ebro River area to the south [# 1932], and the Aragonian Plains to the west, it was only natural for Catalonia to identify strongly with the Mediterranean Sea. Quite understandably, then, this region developed into a strong maritime nation in the earliest times. So, while central and southern Spain were heavily influenced by the Moors, Catalonians adapted their cultural heritage to influences from France, Italy, and other Mediterranean cultures.

The importance of Barcelona, with its enormous natural harbor, has made it the center of manufacturing and industry in Spain. With it comes the honor, possibly dubious, as Spain's most populous city, second only to Madrid! However, the natural beauty of the city, framed by the hills of Montjuic and Tibidabo building to the distant range of mountains, more than make up for its sprawling nature. It presents itself to the Mediterranean much as the city of Naples. Much to its credit, COOB '92, the Barcelona Olympic Organising Committee, is taking advantage of the natural topography and the importance of maritime activities in the siting of the various Olympic venues. More about that later.

It would be reticent not to delve into the rich history of Barcelona, if only to give the reader a taste of this wonderfully diverse city. Earliest records cite the Carthaginian, Hamilcar Barca, as its founder in 230 B.C., lending the name Barcino to the existing settlement (either Iberian or Phoenician). After eviction of the Carthaginians by the Romans, Barcino was established as the capital of the province of Layetana in the district of Hispania Tarraconensis. Visigoths and Moors came and went, but an independent Count of Barcelona was installed in the 9th century, elevating Barcelona to the rank of a city-state [# 1052]. The impact of these various cultures is evident in the heterogeneous nature of the area's architecture: Roman, Moorish, Medieval, Romanesque, and Gothic. Catalonia is probably better known for its more modern contributions to the fine arts: Gaudi's architecture [# 1874], Avantgarde art by Dali and Picasso [# 2108-15], and violinist Pablo Casals music [#2018].

Less known, but no less important, are Barcelona's contributions to learning. The *Usatges*, a code of privileges compiled by Ramon Berenguer I in the 11th century, is generally believed to have been one of the earliest examples of a democratic constitution. Befitting its stature as a maritime state, the first code of European maritime law, the Barcelonian Consulado del Mar, was enacted in 1259. One can't forget the reception accorded Columbus by Isabella and Ferdinand upon his return to Barcelona in 1493 from his trip discovering the New World [# 1280].

BARCELONA: THE OLYMPIC CANDIDATE

Although the Spanish Olympic Committee hadn't as yet been formed (Spain joined the Olympic Family in 1924), Barcelona started on the road towards becoming a host for the Olympic Games with its bid for the 1924 Olympics. The city's formal presentation was made to the IOC on August 17, 1920 during the Games of the VIIth Olympiad being held in Antwerp, Belgium. Other bid cities included Amsterdam, Rome, Los Angeles, Prague, and Paris. While Barcelona fielded a strong proposal, the impending political changes in Spain conspired against it. The 1924 Games went to Paris.

Not to be so easily dismissed, Barcelona tried again. Its campaign to hold the 1936 Games was buoyed by two auspicious occurrences: 1) the upcoming 1929 International Exposition [# 345-57a] necessitated the building of some fine athletic stadia which could be used as Olympic facilities; and 2) the 24th meeting of the IOC, during which the 1936 host city would be decided, was to take place in Barcelona on April 24, 1931. As luck would have it, national elections held 12 days before the convening of the IOC Session resulted in the

rejection of the monarchy and establishment of a Republican form of government. King Alfonso XIII and his family fled the country. While little violence accompanied the change in government, only 19 out of 67 members of the International Olympic Committee chose to attend. Instead, the session was moved to Berlin where that city won the right to host the Games of the IXth Olympiad.

MONTJUIC OLYMPIC STADIUM IN 1929

It would be another 34 years until Barcelona submitted another bid, this time for the 1972 Games. The host city for the Games of the XXth Olympiad was to be named at the 65th IOC Session at Rome in April 1966. Unfortunately, two mistakes were made by the organizers. First, the Spanish Olympic Committee tried something new: dual Olympic cities, in this case Madrid and Barcelona. To that time, the IOC had not looked favorably on two distinct Olympic Cities, much less ones separated by a distance of some 300 miles. Secondly, according to IOC rules, a petitioning city must send its First Magistrate or Mayor; Madrid's mayor instead delegated the duty to an assistant. This resulted in the rejection of the Barcelona/Madrid bid. However, I am sure that the "dual city" concept didn't help matters. Munich, Germany received the nod.

the third and fourth bidding attempts resulted in new sporting facilities. In December 1982, the Spanish Olympic Committee endorsed Barcelona as Spain's candidate city. While it is understood that the President of the International Olympic Committee must remain impartial, it didn't hurt that Juan Antonio Samaranch was a 'hometown boy'. So it was with extensive and detailed plans in hand that Barcelona's Mayor, Pasqual Maragall, presented the formal bid to the IOC during their 91st Session in Lausanne, Switzerland. I am sure it was with great pride that President Samaranch, on October 17, 1986, announced Barcelona as the host of the 1992 Olympics.

PRESENT METER SLOGAN OF COOB '92

COOB '92

The Barcelona '92 Olympic Organizing Committee, known by its acronym COOB '92, was formed on March 13, 1987. This consortium is comprised of the Barcelona City Council, Spanish Olympic Committee, Spanish Government, and Autonomous Government of Catalonia. Only the Spanish Olympic Committee is absolved of any economic responsibility for the Games.

COOB '92 is chaired by the Mayor of Barcelona, Pasqual Maragall, and its Chief Executive Officer is Josep Miquel Abad. The Master Plan, adopted in April 1988, is divided into 315 projects, which cover all aspects of the Games from Ceremonies to Security. The operating budget is projected to be \$667 million, with the majority of revenue being generated from the sale of television rights (\$293.1 million) and concession of licenses (\$93.7 million).

This latest, and as we now know successful, bid to host the Olympic Games started as far back as 1981 when the then Mayor of Barcelona announced the city's intention to campaign for the Games of the XXVth Olympiad. Numerous world sporting championships held in Barcelona between

Two specific marketing areas deserve particular mention. First, the TOP-2 OLYMPIC PROGRAM administered by the IOC, is now in full swing. This program is designed for the company that wishes to be a worldwide sponsor, giving its product or service exclusivity in its category (e.g. VISA was the official credit card and COCA-COLA was the official soft drink of both the 1988 Summer and Winter Olympics). Under this quadrennium's agreement, COOB '92 will receive 33.3% of the sponsorship money.

The second, and for the philatelic world more important, area of marketing is the authorization of stamp issues. To quote the THIRD OFFICIAL REPORT OF THE BARCELONA '92 ORGANIZING COMMITTEE TO THE 94th SESSION OF THE IOC (Seoul, September 15, 1988): "Authorisation is granted for an issue of stamps with a voluntary postal surcharge of 5 pesetas per stamp, the entire amount collected to be made over to the COOB '92 after deduction of expenses." The first issue of 4 values was released October 3, 1988. The Spanish Post Office has announced two more issues for 1989: March 7 (4 values), and October 3 (3 values).

OLYMPIC VENUE CONCEPT

As previously mentioned, COOB '92 has been quite astute in capitalizing on the concept of Barcelona as a maritime city. In keeping with the recent move by organizing committees to reduce costs by using existing facilities, Barcelona is dividing its Olympic venues into 4 primary activity areas: Montjuic, Diagonal, Vall d'Hebron and Parc de Mar. Arranged in a circle, each is accessible by ringroad and subway, the estimated travel time between venues being 20 minutes.

BASKETBALL PHILATELIC NEWS Vol. 3, No. 1 -- April, 1989

This issue of BASKETBALL PHILATELIC NEWS contains an article about Robert Busnel of France, president of FIBA, as well as a reprint of an article about the Third European Men's Basketball Championship held at Kaunas, Lithuania in 1939 (the latter first published in 1972 in FIBA's "The Basketball World"). New basketball stamps and cancellations are reproduced, many of them issued in connection with the Seoul Olympics. A stamp of Taiwan (Scott 1619) which depicts basketball is illustrated; it had not previously been included on most checklists of the sport. The 1939 Lithuania semi-postals (Scott B52 - B54) which were issued for the Kaunas championship, are discussed and the numbers of their perforate and imperforate printings verified.

Write George E. Killian, 325 Rangely Drive, Colorado Springs CO 80921 about membership in the basketball study group.

MATCHPOINT Quarterly Newsletter of Tennis Philately

The spring issue of MATCHPOINT (issue #14) is six pages, with nearly one and a half of them devoted to descriptions of new tennis stamps, including their technical production details. Featured in this issue is a photocopy of one page from the tennis exhibit of Gunnar Dahvig of Sweden, which won a large vermeil at OLYMPHILEX, Seoul, last fall. A key item on that page is a Romania perfin on Scott 456, from the Swedish firm Tretorn which maintained a factory in Romania during that period.

This issue also includes a long question and answer exchange between a member in Israel and this reviewer concerning the "do's" and "don'ts" of tennis exhibiting.

The results of tennis auction #3, which was included with the December, 1988, issue of MATCHPOINT are summarized. 83% of the lots sold, 62% of them going to overseas bidders. This issue of MATCHPOINT also illustrates two items of early European postal stationery owned by one member of the tennis group, with a plea for information to help him identify them.

Subscriptions to MATCHPOINT are \$4.00 per year (four issues) for those residing in the U.S. and \$6.00 per year for those abroad. Write to Les Yerkes, P. O. Box 424, Albuquerque NM 87103.

FILATELIA SPORT - OLIMPICA, #22

The December, 1988, issue of the journal of the Sports Group of the Italian Thematic Association numbers 40 pages. (The previous issue of August, 1988, was incorrectly numbered 20 rather than 21). The editor pleads for additional research articles on aspects of sports philately, noting that the journal is deteriorating into a catalog of new issues rather than one which publishes also new discoveries and other results of philatelic and thematic research.

The lead article deals with fencing and discusses the philatelic history of the world championship and European championship in that sport; it is illustrated with both older and recent cancellations celebrating these events. The longest article is Luciano Calenda's on basketball, which covers new issues of stamps, postal stationery, cancellations and meters in this field. Two of the recent meters marks are reproduced here.

Shorter articles relate to new and newly discovered sports-related meters. Nino Barberis discusses the only known meter of the Wembley Olympic Games (also illustrated here). Other short articles deal with auto racing; the Czechoslovak steeplechase at Pardubice, considered the most difficult course in Europe; Japanese volleyball cancellations of 1987; a missing "aereo" inscription error on the Peru Wembley Olympics souvenir sheet (Scott C81A); and the Yugoslav cancellations for the 1988 European Junior Basketball Championships. Finally, there are seven pages of illustrations of new European cancellations covering the whole range of sports.

SPI MAIL AUCTION REGULATIONS

TERMS OF SALE. Please read carefully

1. All lots are sold to the highest bidder at one bidding interval over the second highest bid. Bidding will be in \$0.50 intervals. On identical bids, the earliest postmark will govern. If only one bid is received on a lot, then the lot is sold at that bid.
2. The right is reserved to withdraw any lot prior to the sale. SPI reserves the right to reject any bid believed not to have been made in good faith. Any bid not commensurate with the value of the offering may be rejected.
3. Terms of sale are cash and successful bidders will be notified of lots purchased and must remit before lots are sent.
4. NO BUYER'S PERMIUM WILL BE ADDED TO THE SALES PRICE. No charges will be made for executing bids. SPI is not responsible for bidder errors or omissions. CHECK YOUR BID SHEETS CAREFULLY BEFORE SENDING.
5. Postage and handling charges are payable by the purchaser. A minimum charge of \$1.50 will be made for postage, insurance, and handling. Proof of sending to the advised address shall constitute delivery.
6. Should a claim for error of description arise, such claim shall be made within three (3) days of receipt of lot. Claims made after that time cannot be considered. Lots described as collections, mixtures, etc. are not returnable under any circumstances.
7. The placing of a bid shall constitute full acceptance of the foregoing terms.

CONSIGNOR INFORMATION

1. Consignments of sports and Olympics material are now being accepted for Mail Auction #27. Material will be accepted until May 31, 1989. All material received after that date will be held for Mail Auction #28.
2. SPI mail auction commissions are 10% for members, 15% for non-members.
3. Packaging: Each lot should be packaged in a separate clean envelope or glassine.

4. ALL MATERIAL SUBMITTED MUST HAVE A DETAILED INVENTORY OF THE MATERIAL SENT along with an estimated price or minimum bid. The auction manager will not set estimated prices or minimum bids. Material without inventory will be returned to the sender at the sender's expense.

5. The auction manager reserves the right to reject any consignment. A written explanation for such rejection will be given the owner.

6. Unsold lots will be returned to the owner following the close of the auction. Payment will follow after all payments from buyers have been received.

MAIL ALL BIDS AND CONSIGNMENTS TO:

CZECHOSLOVAKIA

by Joe Lacko

The President of the International Olympic Committee visited Prague and in his honor a mass run was organized. OlympoSport, their counterpart to our SPI, held an exhibition on this occasion at the Grand Kunraticke. Appropriate medals were struck and distributed to the exhibitors.

A special cancellation was used to commemorate the visit. The round hand stamp shows runners on an S-curve with the following text:

50. Velka Kunraticka
12. 11. 1983
Praha 2

Two different cachets were used:

1. A replica of the commemorative cancel and another circle with "International Olympic Committee" and the Olympic rings inside.
2. Translated:

THE HANDBOOK OF TENNIS PHILATELY

by L. M. YERKES

212 pages; 8 1/2 X 11; soft-cover; spiral bound; offset on book paper by Custom Impressions, P.O. Box 2286, La Grange, Illinois 60525-8386; published by SPORTS PHILATELISTS INTERNATIONAL. Members of SPI may purchase a copy for \$18.00 (USA) and \$20.00 (overseas). The non-member price is \$25.00. All prices include surface mail postage. Available from Clem A. Reiss, 322 Riverside Drive, Huron, OH 44839 USA.

The Handbook of Tennis Philately lists stamps associated with tennis in chronological order by issue date starting with the 1934 Philippines issue commemorating the 10th Far Eastern Championship Game in Manila. Each entry provides date of issue, event commemorated, perforation, watermark, printer, designer, denomination, color, and description. Postal stationery is described alphabetically by country of issue, and includes Belgium Publibels, Japan ECHO cards, and 19th century Swedish pre-stamped advertising envelopes. Postmarks are described alphabetically by country of issue.

The user will find over 940 black and white illustrations of the stamps, postal stationery and postmarks described. The extent of research which went into this project is evidenced by the useful philatelic bibliography. This is indeed a complete handbook for the tennis enthusiast.

POSTAL HISTORY AND VIGNETTES OF THE 1932 OLYMPIC GAMES

196 pages; 5 1/2 X 8 1/2; loose-leaf three-ring gold stamped vinyl binder; offset on quality paper by K-Line Publishing Co., Berwyn, IL; published by SPORTS PHILATELISTS INTERNATIONAL; Sherwin D. Podolsky, editor-in-chief; available from Clem A. Reiss, 322 Riverside Drive., Huron, OH 44839, USA. Members price \$10.00 (USA), \$12.00 (overseas). The non-member price is \$15.00. All prices include surface mail postage.

This is an in-depth study of the 1932 Olympic Games held in the U.S. Background information on the Winter Games at Lake Placid and Summer Games at Los Angeles is sketched out. The valuation system bases the value of a cover on the sum of the values of the stamps, cachet and postmarks thereon. Over 400 items are illustrated including cachets, postmarks, combination covers, picture postcards, naval covers, cover stuffers and vignettes. The bulk of the book is a classification of postmarks, cachets and vignettes with valuations. A separate chapter presents naval Olympic covers including cachets and postmarks but without valuations. The bibliography includes not only the basic references but also selected general postal history literature. Without an index, the book includes a detailed table of contents. The book goes beyond a thorough treatment of known first day cover material and includes Organizing Committee covers, Opening Day covers, Philatelic Exhibitions, labels, locals, and Last Day covers. A broad panorama not only for the topicalist but also first day cover enthusiasts and students of contemporary postal history. Entertaining and informative.
