## UNIVERSIADE DUISBURG ' 89

by *GEORGE E. KILLIAN*

Universiade '89, originally scheduled for San Paulo, Brazil, was cancelled when the Brazilian University authorities were unable to secure the needed financial support to host the games.

The FISU Steering Committee met in Rome, Italy, in late January and formally voted that the games would not be held in Brazil and that interest had been shown by Korea, Morocco and West Germany to step in and host the games.

After a short period of turmoil, the games were finally awarded to Duisburg, West Germany. Due to the short time for preparation, it was agreed to host only four sports: athletics (m & f), rowing (m & f), fencing (m & f) and men's basketball. Josef Krings, Lord Mayor of the City of Duisburg, and Dr. Richard R. Klein, Chief Executive of the City of Duisburg, and Chairman of the Organizing Committee, were the two individuals who were charged with the responsibility of organizing the Universiade at such a late date.

The Games opened on August 2, 1989, at 5:30 p.m. at Wedan Stadium in Duisburg before a capacity crowd of 35,000. Seventy nine countries appeared in the opening ceremony parade. Over 3,000 athletes and officials were registered to participate in the games.

The philatelic items usually associated with games of this stature were meager. A special postmark shown below was the only philatelic item available to the public during the nice day event. A small portable post office set up outside Wedan Stadium where the participants could deposit their mail used the special Universiade postmark.

The Organizing Committee of Duisburg used a meter (red) cancel (shown below) in general correspondence before and during the games.

The Winter Universiade '91 is scheduled for Sapporo, Japan, while the Summer Universiade '91 will be held in Sheffield, England. I believe those of us who have a philatelic interest in the World University Games movement can look forward to a full philatelic program.

THE GAMES THAT NEVER WERE"  
George E. Killian

In answer to an inquiry that was sent to me regarding the 1940 American Olympic Stamps, I asked C. Robert Paul, Archivist of the United States Olympic Committee, if he could research his files to see if there was any information to enlighten our readership on this subject. Bob sent along the following which I found to be quite fascinating:

## REPORT of OLYMPIC STAMP COMMITTEE

FRANK E. NELSON, *Chairman*

The following is a brief resumé of the activities of the recent American Olympic Stamp Committee:

As a new fund-raising implement for the use of the American Olympic Association, Mr. Avery Brundage suggested an Olympic poster stamp of the same type that had already proved exceedingly successful for other similar organizations. Mr. Brundage himself selected the very appropriate design, and the stamp when made up from a steel-engraving of the finest type was promptly recognized as one of the most attractive of its kind ever produced. This in itself served to augment and amplify prevailing Olympic prestige.

In the same vein of seeking quality to elevate the standards of the fund-raising campaign to a status of dignity, a number of special unperforated sheets were prepared. These very handsome sheets were autographed by leading Americans—among them being Alfred P. Sloan, Paul Whiteman, John Kieran, Edgar A. Guest, Lily Pons, Lowell Thomas, and Grantland Rice. The plan was to sell these sheets at a premium but on the advice of Mr. Brundage this sale was held back for the heat of the campaign. Consequently these valuable sheets were never sold, although considerable valuable publicity of the highest type accrued to the Association from the publication of the Big-Name signers, who thus legitimately endorsed the entire Olympic idea.

Early in the campaign, Mr. Brundage appointed a special Olympic Stamp Committee comprised of the following: Carter Glass, Jr., President of the American Philatelic Society, Tug Wilson, J. Lyman Bingham, Owen Van Camp, Fred L. Steers, Paul E. Nordstrom, and Frank E. Nelson, Chairman. This committee functioned faithfully and sincerely from the day of its formation. Excellent results were anticipated from the cooperation of the College Committee under the direction of Mr. Frank McCormick, who laid promising plans for stamp activities in the schools and colleges—a fertile field for such a promotion.

A sampling test in August, 1939, just before the war abruptly terminated the whole program, revealed that the stamps were an effective medium for tapping the resources of the numerous large corporations. In their hands, the distribution of the stamps on envelopes and letterheads served further to advertise the Olympics. A hundred letters sent to the heads of such firms brought in \$1,300.00 for the Olympic fund, indi-

cating that this was a successful and important method.

If this simple, convenient and inexpensive method of fund-raising could have been carried out on the thousands of large corporations in this country, unquestionably a large sum of money would have been raised for the American Olympic team.

Had the campaign been carried out, many additional promotion ideas had been planned—such as newsreel publicity of President Roosevelt presenting autographed sheets of stamps to the Honorable H. Hjalmar Procopé, Minister of Finland; but, unfortunately, all such plans never progressed beyond the embryo stage because the entire program was affected by the war just at the very moment when it was beginning to show signs of gathering momentum.

## LABELS OF THE 1988 OLYMPIC GAMES

by Robert J. DuBois

Some labels were issued in anticipation of the 1988 Games and were listed in the writer's published "Catalog of Olympic Labels, 1894 - 1985." A more complete listing of such labels has now been prepared in the form of supplementary pages for that catalog. Both the original and supplementary catalog pages that cover the 1988 Olympic Games are herein presented. The pages are numbered to facilitate their proper placement in the catalog.

It is the writer's intention to make these addenda as well as future supplementary pages available as 8½ x 11" pages, punched for 3-ring binder. At this writing there are eight original catalog pages and eleven addenda pages that cover both the Winter & Summer Games of 1988.

17 addenda pages for the "1972 - Munich" Games have just been completed. Further information on the original catalog and/or the addenda pages for that catalog is available on request.

## 1988 - SEOUL

These Games were commemorated via the issuance of stamps and labels that feature the same basic designs. The Korean Ministry of Communications and the Seoul Olympic Organizing Committee supplied brochures which describe their Olympic emblem (logo) and mascot, as follows:

**EMBLEM:** "Harmony and Progress" has been adopted as the motto for the Seoul Olympiad. The emblem design is derived from a traditional Korean decorative motif called "sam taegueuk." It combines three huge commas (swirls) into a circle representing the harmony of heaven, man and earth. The outward and upward motion is progress toward world peace through realization of the Olympic ideal, and the inward motion stands for the coming together of people from all over the world for the Games.

**MASCOT:** The tiger has long been a bold but friendly hero of Korean stories and folk art. Hodori, the Korean tiger cub chosen as the mascot of the Seoul Olympics, puts this friendliness to work for you. This particular tiger is wearing a "Sangmo" or streamered hat, with a long tape attached to it, put on when farmers play farm music at a festival. The "S" shape of the tape is the first letter of the city, Seoul.

The round-shaped labels are listed first, below:

1. September 17 - October 2, 1988 Seoul, Korea/in a red panel; GAMES OF THE 24TH OLYMPIAD/SEOUL 1988/SLOOC/ in lower dark blue panel. Vignette, above: "three-swirl" emblem above multicolored Olympic rings; © 1983 SLOOC All rights reserved TM/ below rings. 100mm overall diameter, swirls are bright orange, red, and dark blue; same colors are in lower text-half of circle; texts are white except for the copyright line which is black.
2. Same as No.1 but smaller, 70mm overall diameter.
3. GAMES OF THE 24TH OLYMPIAD/SEOUL 1988/Sep.17 - OCT.2/ below. Vignette, above: same as No.1, including copyright line. Border: concentric, circular stripes - same five colors as those of the Olympic rings, with red outer line & blue inner line. 146mm overall diameter, emblem same colors as No.1, all texts are black, background is completely white (unlike labels 1 & 2 that have a 3-colored lower background).
4. Same as No.3 but smaller, 90mm overall diameter.
5. Same as No.3 but lower text is in Korean language.

These labels are all the self-adhesive type, unless otherwise noted.

9. Same as No.8 but smaller, 75x85mm overall.
10. Same as No.8 but text is in Korean language.

## FILATELIA SPORT - OLIMPICA #23

The latest issue of the journal of the Sports Group of the Italian Thematic Association is dated May, 1989 and totals 48 pages. Included are short articles on auto racing events in Europe, illustrated with cancellations of the 1980s; on the history of bocce (the Italian version of bowls); a continuation of the article on fencing begun in the previous issue; and an article on the annual bicycle race of East European origin called "Race for Peace," which in 1988 celebrated its 41st annual running. As usual there is extensive coverage of new basketball material - stamps, cancels and meters - and a number of recent U.S. baseball cancels are shown.

Ferran Bellfort, Galileo 301; 6 - 1A, 08028 Barcelona, Spain offers for sale a catalog of bicycle-related cancels of Spain of the period 1954-1988. Interested persons might want to write him. A member's collection of material on boxing (cancels, stamps, souvenir sheets, proofs, as well as the boxing postal card of the 1924 Olympics) is being offered for sale through the Sports Group. Interested persons should write Pierangelo Brivio, Via Tiziano 19, 20043 Arcore MI, Italy for further information. A catalog of baseball and softball stamps and cancels for the year 1988 totalling 33 pages has been prepared by one of the members of the sports group. Photocopies are available for 5000 lire plus postage. Write Sig. Brivio (address above). The lire exchange rate is roughly 1350 lire = \$1.00.

Two from the excellent group of meters which illustrate this issue of the Italian publication are shown here.

## THE FABULOUS 1930S OF ITALIAN SOCCER

The Sports Group of the Italian Thematic Association has issued another of its periodic special supplements, this one by Franco Pellegrini entitled "I favolosi Anni 30 del Calcio Italiano," (rough translation above). The soccer World Cup competition was initiated in 1930, and won by Uruguay. Italy won the next two competitions for the cup in 1934 and 1938. This 40 page special supplement on coated paper deals with philatelic material - primarily stamps and covers - related to the 1934 and 1938 Italian victories. It will be of great interest to collectors of soccer. This copy will be placed for sale in a forthcoming SPI auction.

**MATCHPOINT**  
Quarterly Newsletter of Tennis Philately

The June, 1989 issue of MATCHPOINT," number 15, is 4 pages. A 312 lot auction of tennis material was also mailed to interested subscribers. In addition to descriptions of new tennis stamps and illustrations of new postmarks, this issue features several queries from members attempting to identify tennis-related material, and answers from members to previous queries of a similar sort. There is a feature article on Cilly Aussem of Germany, who won many European titles, including Wimbledon in 1931, and who was recently honored on German stamps. Another article illustrates and describes the Staffa locals of 1977 which commemorated the 100th anniversary of the Wimbledon championships. Finally, a number of early tennis advertising covers are reproduced. One, a Spalding cover of 1885, may be the earliest tennis-related philatelic item.

Subscriptions to MATCHPOINT are \$4.00 per year (four issues) for those residing in the U.S. and \$6.00 per year for those living abroad. Write to Les Yerkes, P. O. Box 424, Albuquerque NM 87103.

**MATCHPOINT**  
Quarterly Newsletter of Tennis Philately

The feature article in this issue of MATCHPOINT (number 16) is by this reviewer, and describes and illustrates an 18th century folded letter addressed to an individual at the Tennis Court Coffee House, Whitehall, London. Another article in this issue, by Gunnar Dahlvig, a member of the tennis study group and Vice President of the FIP Thematic Commission, outlines the FIP position on privately printed cachets on covers - e.g., advertising covers, cacheted FDCs, Civil War patriotics, etc. The balance of this issue is devoted to new stamps with a tennis connection (11), unofficial tennis handstamps and recent or newly discovered tennis postmarks.

Subscriptions to MATCHPOINT are \$4.00 per year (four issues) for those residing in the U.S. and \$6.00 per year for those living abroad. Contact Les Yerkes, P. O. Box 424, Albuquerque NM 87103.

# LA PHILATELIE THEMATIQUE - GROUPE SPORTS

The Association Francaise de Philatelie Thematique published a 145 page special issue in honor of PHILEXFRANCE '89. It included contributions from all of the topical/thematic sub-groups, with 10 pages devoted to sports. There are separate articles on cycling, Olympic games, rugby and table tennis. All are well illustrated with reproductions of stamps and cancellations (mainly French) related to these sports.

Another feature of this special issue is a long article describing and illustrating the types of philatelic material acceptable in a thematic exhibit. A good deal of attention is paid to some of the more obscure types of material - e.g., advertisements on booklet panes, booklet covers and telegrams; postal stationery (with advertisements) printed to private order (including Belgian postal check envelopes and the Italian busta lettera postale); British Mulreadys; and perfins. The types of French cancellations (Daguin, Flier, Krag, etc.) are identified and illustrated. Although not specifically related to sports, the article should be of interest to any thematic collector interested in exhibiting. While it is in French, a good deal of information can be gleaned by the non-French reader from the illustrations. It is 17 pages long and I will provide photocopies to anyone interested for \$1.70 plus #10 envelope franked with 45 cents postage (\$3.00 for overseas addressees).

Topical/thematic collecting is very popular in France and this special issue contains a number of advertisements by European (mainly French) firms catering to advanced topical collectors. These include CAPHILA, 25 rue Drouot, 75009 Paris, which has a net price catalog and also operates periodic thematic auctions. Also Paul Sussman, B.P. 255, 13269 Marseille Cedex 08 (France), which advertises a 26 volume Olympics collection (from 1896 to Seoul) for sale by volume. Another is Pony Express Philatelie, 7 rue Robert Planquette, 75018 Paris, which specializes in early covers with a thematic connection. Finally, J. Desimpelaere, Elf Novemberlaan 18, B-8530 Menen-Rekkem (Belgium) specializes in meter cancels, booklets and postal stationery with a thematic connection.

# BASKETBALL PHILATELIC NEWS

The lead article in the September, 1989, issue of this newsletter for basketball collectors is by Luciano Calenda of Italy and concerns basketball in the Universiade (World University Games). It describes and illustrates all basketball philatelic items issued for these games, beginning with the 1959 Turin Games, through those held in Zagreb in 1987. Other longer articles concern the cancellations issued for the 1989 European Basketball Championship for Men and a checklist provided by Pere Magrane of Spain of stamps and FDCs (with most items illustrated) on which the sport is represented with tiny or obscure references which are easy to miss unless carefully examined.

Other articles deal with philatelic items issued by the Yugoslav postal authorities in connection with the 1989 European Basketball Championship for Men (EUROBASKET) and with the results of the basketball competition in the 1936 Berlin Olympics.

For membership in the basketball group write George E. Killian, 325 Rangely Dr., Colorado Springs CO 80921.

## RUGBY: NEW ZEALAND versus FRANCE

by BRIAN G. VINCENT

Commemorating the French Bicentennial and New Zealand Post's participation at Philexfrance, New Zealand Post issued a souvenir sheet and a set of three postcards on 8 July 1989.

The three postcards are of interest to sports collectors because, while they could only be purchased as a set, one of them featured rugby football. The French national side towed New Zealand in 1989 playing two tests against our national side "The All Blacks". The All Blacks won both tests - 25 to 17 and 34 to 20.

The rugby postcard issued for Philexfrance shows the French and New Zealand rugby emblems (the cockeral and the silver fern) and a scene from the Rugby World Cup final between France and New Zealand. Unfortunately the write-up on the back of the card states that the scene is from the 1988 final when in fact it was played in 1987. This is a little embarrassing when New Zealand is the current holders, being winners of the first Rugby World Cup.

The postcard had the round \$1 Kiwi stamp affixed and this was cancelled at the New Zealand Post stand at Philexfrance on 7 July 1989.

## THE 50th JAPAN DERBY

John La Porta

The cover illustrated commemorated the running of the 50th Japan Derby on May 28, 1983. Japan issued a 60 yen stamp to honor the event. The stamp depicts a colt in the foreground and a race in the background. The cover is a First Day of Issue for the stamp, and shows two cancellations as well as a multi-colored cachet. One cancel is in black and is from a Tokyo sub-station and the other is a commemorative cancel in brown showing racing horses inside a circle with 50 and a Japanese phrase at the top. This second cancel was evidently applied at the racetrack.

The first Japan Derby was held on April 24, 1931 after the fashion of the Derby in England. It is the biggest racing event of the year and decides the best four-year-old of the year. Horse racing is one of the most popular entertainments, the profit of which does a great deal for the economy and the promotion of stock-breeding.

A recent book on international horseracing offers the information that Sunday racing sometimes draws 100,000 to the track and the record is 130,000 people. It also states that racing is only permitted on Saturdays and Sundays and that betting is very heavy. The Japanese Racing Association conducts the betting rooms in its three buildings and there are 800 betting windows on 13 floors reached by 19 escalators. As much as 1000 million yen has been bet in a single day. Betting can also be done by telephone by subscribers to the service.

## PRESIDENT'S MESSAGE

Well, readers, the time certainly has flown by since my last communication. By the time you read this, Autumn will be well upon us, although living in sunny southern California it's often hard to tell.

While many of you have been busily coping with the fallout of leaves (retribution, I'm convinced, for enjoying their kaleidoscope of colors), your Board has been diligently digging out from under its own inundation of sorts. In an effort to provide you with new or updated services, questions about what the membership really wants have been piling up around us like those proverbial leaves!

So, in the best of American traditions, we present (drum roll, please): THE SPI MEMBERSHIP QUESTIONNAIRE.

Now, before you growl at us for submitting you to one more survey, I assure you that this will be a painless experience. We have tried to include all our questions in this one survey, which should only take you 10 to 15 minutes to complete and a 25 cent stamp to get it to us.

Two questions deserve a closer look. In an effort to revamp JSP, we have been exploring various options for changing the format and appearance. Question #8 discusses the 3 possibilities which we have determined meet our publishing capabilities within a reasonable dues structure. Option #1 is our present format (i.e. same size, loose-leaf). Option #2 retains our present format's size, but creates a center-stapled booklet without loose-leaf pages. However, for those that separate serialized checklists from the body of the journal, we will be binding them (along with the auction) into the center pages so that they can be removed without destroying the entire issue. Finally, Option #3 would allow us the greatest potential for variety. Like Option #2, it would be center-stapled. Instead of a half-size booklet, JSP would be enlarged to an overall size of 8-1/2 x 11 inches: in other words, a standard magazine format. This would allow variety in layout, nearly full-size reproduction of covers, and the opportunity of moving to a desktop publishing system (much more efficient).

The second question, actually series of questions (#26-33), refers to whether SPI should form a circulating Library. The Board has approved the formation of an investigating committee, yet we need to know if the membership actually wants one. Even more importantly, we need a Librarian, whose job it would be to receive, catalogue, and store the materials, as well as handle the borrowing requests of members. This would not be an easy task, but without a Librarian, there can be no Library. Will an ex-Librarian, or other willing SPI member step forward?

In closing, fellow members, let me ask you to take a few minutes right now, and mail us your completed survey. Last, but not least, an early wish for Happy Holidays to you all!
